

Aurilueur Esthetic Clinic: Operations Intake

A short set of questions following our meeting. Most are multiple choice and it should take about 5 minutes. We have left out anything you have already told us, so every question here is one that decides what we propose and what it costs.

1. Where are your enquiries currently coming from?

Select all that apply. Most clinics pick three or four.

- ☒ Google Ads
- ☒ Meta Ads (Facebook/Instagram)
- ☒ Google Business Profile (GBP)
- ☒ Website
- ☒ Referrals
- ☐ Existing or past patients
- ☐ Organic social media
- ☐ Walk-ins
- ☐ Other:

2. Looking ahead 6 months, where do you see your marketing headed?

This is about your own read on it, not a specific budget number.

- ☐ Going up, planning to invest more in ads and marketing
- ☐ Staying about where it is
- ☐ Cutting back, or still re-thinking whether it is worth it
- ☐ Not sure yet

3. What happens when an enquiry comes in outside your working hours, say late evening or early morning?

Think of the last enquiry that came in after closing. What actually happened to it?

- ☐ Someone responds manually
- ☐ We respond the next morning
- ☐ An automatic message is sent
- ☐ It is handled by a different person or team
- ☐ Nothing happens until someone checks it
- ☐ Other:

4. If a lead does not respond or does not book after the first conversation, how many times do you typically follow up?

Think of your last 10 leads who went quiet. What usually happens next?

- ☐ No follow-up
- ☐ 1 follow-up
- ☐ 2 to 3 follow-ups
- ☒ 4 or more follow-ups
- ☐ Depends on the lead or staff member
- ☐ No fixed process

5. What number or platform do patients message you on, and who handles it?

For example: "One shared WhatsApp Business number, checked by whoever is free at the front desk."

Or: "Each staff member replies from their own personal WhatsApp."

Whatsapp, managed by sales manager

6. How are appointments currently confirmed, reminded about, cancelled, or rescheduled?

Briefly describe what happens at each of those moments. For example: "We call to confirm a day before. If a patient wants to cancel or reschedule, they call the front desk directly. There is no automatic reminder sent."

Whatsapp reminder

7. What happens when a patient misses their appointment without cancelling?

Think about the last no-show. What actually happened after that?

- ☒ Someone calls or messages them right away
- ☐ They are contacted later
- ☐ An automated follow-up is sent
- ☐ Depends on who notices
- ☐ Nothing systematic happens
- ☐ Other:

8. When a cancellation opens up a slot, do you have a way of filling it?

Select all that apply.

- ☐ Contact patients on a waitlist
- ☐ Contact previous leads who had not booked
- ☒ Contact patients manually when possible
- ☐ No process currently
- ☐ Other:

9. After a consultation, if a patient receives a quote but does not book immediately, what usually happens next?

For example: "Front desk calls again after 2 to 3 days." Or: "We wait for the patient to come back to us."

- ☒ Staff follows up manually
- ☐ An automated follow-up is sent
- ☐ The patient is expected to reach back out to us
- ☐ Depends on the staff member
- ☐ No consistent process
- ☐ Other:

10. What are you hoping to achieve by improving this process?

In your own words. For example: "Stop losing enquiries that go cold overnight." Or: "Free up front-desk time currently spent on manual follow-ups."

Trying to get to connect with enquiries
.....

11. A few months from now, what would success look like to you?

For example: "Fewer missed leads, fewer no-shows, and a clear picture of where enquiries are actually converting."

More lead conversion
